Email Reminders – IMPORTANT

Yahoo has been turned off - we are switching to Band.us

Thank you to all who signed up early to help me test the new program.

We have been testing this app for about a week and it will work perfect for our band. I have many members to get signed up. Please help by signing yourself up.

About Band.us

- It does NOT replace the inscoreorder music library and concert planning. That remains the same.
- It replaces yahoo, the members only news letter blasts, and adds some cool functionality including photo sharing.
- It integrates with the google event and rehearsal calendars I already keep up to date.
- It works with email, a desktop website, or an APP. (your choice)
- It has an Apple, Google Play, and Desktop App.
- If another group you are in uses it no need for separate log-ons.

Please sign yourself up

- Browser: Go to <https://band.us/>
- Android or iPhone: Download free app
- Sign up for account (or log in if you have one)

Main Group (reminders & announcements)

- Find the JHCB group by searching jhcband or go to <https://band.us/@jhcband>
- IMPORTANT: Review your notification settings.

Sectionals (just for your section)

- I set up a group for each section, it is up to each section on how to use it. – search JHCB to find yours.
- Example: If I'm running late I can message the Flute section and all the flutes get a message that I'm running late. OR Zach can message a particular section special instructions.

The best thing....EVEN RON CAN PARTICIPATE!
