

## Community-Orchestra

Dear members of the community-orchestra of Jackson Hole.

2004, the boy lent me Scouts troop 0268 before the antlers-auction with her honorary-membership over what in my life long very proud will remain. At this days turned the scouts form a video-film over the antlers-auction and your community-orchestra.

I was impressed that from this orchestra very much with much zest very much and energy played and it a me a very deep friend, to watch then, was. Also has impressed me like the musicians with the American music-marches into the rolling came and with her feet the bar with stepped quite quite madly!

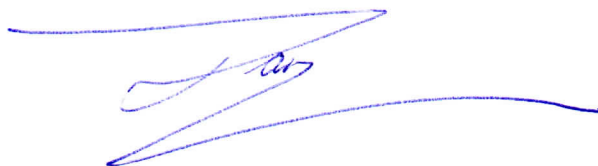

Also, it be dressed very civil that all beautifully and not in uniform then that fitted everything so beautifully together.

We here in Dardesheim have that itself also city-orchestra from itself from decades from an offspring and youth-orchestra formed and is today very successful. This orchestra is also it the old forms very well however admittedly has still forgotten them with our existing is. Harms, only that is in on the video-film only ten minutes your entertaining music listens and could, marvel at however many-standardizes you show here once in other time your proficiency I would be very happy me over it.

I wish you all still top lease very much joy with your sonorous hobby about many people with it.

Sincerely,

Dardesheim, April 2014
